ABOUT ME

Enthusiastic and dedicated BCA and MCA graduate with a solid understanding of software development, databases, and programming concepts. Skilled in Java, SQL, and basic web development. Passionate about building efficient and scalable applications. Looking for an opportunity to start a career in the IT industry where I can enhance my skills and contribute effectively. Strong analytical thinking and adaptability to new technologies.

EDUCATION

KMM INSTITUTE OF POST GRADUATE STUDIES - TIRUPATI

2024-2026

MCA - MASTER OF COMPUTER APPLICATIONS - 75%

MOTHER THERESA DEGREE COLLEGE - PALAMANER

2021-2024

BCA - BACHELOR OF COMPUTER APPLICATIONS - 79%

PROJECTS

Predictive Modeling of Software Behavior Using Machine Learning

Designed and developed a Software Behavior Prediction (SBP) model to analyze and predict software execution patterns in complex systems. Applied Machine Learning techniques such as Multi-Label Classification (MLC) and LSTM networks to handle concurrent processes. Implemented an optimized threshold mechanism to improve prediction accuracy of multiple software states. Utilized historical execution data to forecast future behavior, reducing the need for exhaustive analysis. Evaluated performance using benchmark datasets like Traffic Light and Satellite Memory systems. Achieved higher accuracy with reduced computational overhead compared to traditional methods. Enhanced software reliability by identifying issues like deadlocks and race conditions.

Thopstech - Bangalore (feb 2024 - July 2024)

Successfully completed an intensive 6-month internship, achieving advanced proficiency in JAVA FULL STACK.

Data Analysis and Visualization Project

Perform Data Analysis on a relevant dataset (e.g., Covid-19 cases , Stock Market threads , Climate changes data) and Create interactive visualization to present insights. Write a report detailing your finding and Methodologies.

TECHNICAL SKILLS

- MYSQL
- JAVA
- JAVASCRIPT
- HTML
- CSS

DECLARATION

I declare that the information stated above is true to the best of my knowledge.
